This is a good running 1996 Suzuki Savage 650. Suzuki claims this bike gets 50 miles per gallon of gas. I have not verified this but I am sure it gets close to that. It has a 650cc engine with a 5 speed transmission. Suzuki still makes this bike but changed the name to the Boulevard S40.

Hey guys, I have a 2002 Suzuki Savage 650 that had been running with no problems. It's been sitting in the garage for about two weeks. I've started it at least 3 times a week and there was no problem but when I went to start it couple days ago, it won't. The battery seems fine, everything lights up and the ignition works. There's definitely gas in the tank and it's not old.
