This can be achieved after you done creating PHP socket Server and you have to create socket connection from flash and connect to php socket server.

### actionscript 3 - AS3:Multiplayer Game by using AS3 with ...

If the title of the book doesn't give it away, it is a book that focuses on multiplayer concepts and applies them to games and virtual worlds via ActionScript.

### ActionScript | Jobe Makar's Blog

This is an excellent book on building multiplayer games with ActionScript 3. It provides insightful theory on game building and synchronisation techniques. Coming from distributed systems background, I particularly enjoyed the section on latency hiding, and the implication of security concerns in multiplayer games.

If the title of the book doesn't give it away, it is a book that focuses on multiplayer concepts and applies them to games and virtual worlds via ActionScript. Some of the coolest topics are those on dead reckoning, real-time movement and time synchronization, loads of information on avatar rendering, and other useful topics like thorough coverage of isometric concepts.

### June | 2009 | Jobe Makar's Blog

I've only leafed through it, but it looks at the basics of setting up multiplayer games (and servers) using ActionScript (which is the language of Flash). You can set up a development environment and server for free (although one reviewer complains that the development environment doesn't work on the mac).
