The Log Analytics gateway is an HTTP forward proxy that supports HTTP tunneling using the HTTP CONNECT command. This gateway sends data to Azure Automation and a Log Analytics workspace

in Azure Monitor on behalf of the computers that cannot directly connect to the internet. The Log Analytics gateway supports:

Connect computers by using the Log Analytics gateway ...

The default gateway can be specified by the route command to configure the node's routing table and default route. In a home or small office environment, the default gateway is a device, such as a DSL router or cable router, that connects the local network to the Internet. It serves as the default gateway for all network devices.

Default gateway - Wikipedia

The issue we are having is the famous default gateway issue when the client connects. The default gateway appears as "Default Gateway 0.0.0.0 If i connect the user to the LAN it gets DHCP addresses with no issues including default gateway so internally DHCP is working fine. I have not changed or added any IP routes.

RRAS VPN Server with DHCP Relay not forwarding default ...

Open Port Guides for the Gateway Router. Here is our list of port forwarding guides for the Gateway router. They are listed by model number. If you don't see your exact model number we recommend picking one that is close. A different guide for the same router manufacturer may work just fine for you.

How to Get an Open Port on Gateway Routers - port forward

Subnets will always be all ones on one side, and all zeros on the other. I mean that they will always look like 111111000000 and never like 1010101101. Lets take a closer look at what a group of ip addresses looks like. Using the 255.255.255.0 subnet from above let me make a table. 192.168.1.0 - Subnet Address 192.168.1.1 - usually the gateway

Subnets, gateways, and IP ranges - port forward

Where to Buy a Gateway. Gateways can be purchased from many in-store or online retailers such as Amazon, Best Buy or Staples. Owning your own gateway allows you to personalize your experience based on your needs and preferences for a single payment, which could save you money in the long run and allows you to upgrade your gateway whenever you want.

What is a gateway? And how does the gateway work? | Actiontec

The gateway is a system that can receive outgoing packets and forward them one hop beyond the local network. The following is a simple routing table for a system on an IPv4-only network: The following is a simple routing table for a system on an IPv4-only network:
