Solve the Amazing Leap Frog IQ Test Puzzle

The Puzzle game is one of three mini-games which can be played with tamed mature frogs (the others are the Race and Search). The frog "participates" in the game by watching the game grid from a lily pad. When the game is won, the frog's happiness grows to 100%. Partial completion of the game will raise the frog's happiness, although not to 100%. The other prize for winning a game is a random ...

Puzzle game | Pocket Frogs Wiki | Fandom

To do this two frogs of the same colour would have to be next to each other. As you have probably seen this always leads to a problem. The running of the frogs stops when this happens. So that means that each frog has to move 4 lily pads forward. There are 6 frogs so altogether 24 lily pads have to be covered.

Leap Frogs | NZ Maths

Does anyone know the puzzle with the 6 frogs and 7 stones that they must jump? it's three green frogs on the left, three brown frogs on the right. All sitting on a stone. There's an empty stone in the middle. Now, how to make them jump (skipping only one stone at the time), to change the positions of the frogs on right and left. Help me?

frogs?

Frogs - NRICH

Then move red frog number 2 along to the right once. Then make the blue frog closest to the left jump over the red frog and reach the left side. Then move the other blue frog to jump over the red frog. Next, move the red frog nearest the right to reach the very end. Make the other blue frog jump so that it is next to the other red frog.

Frogs - NRICH

lead to alternate ways of expressing the solution.

Process/strategy • Be systematic Start with the minimum number of frogs and build up. The easiest way to start would be have the same number of frogs on both sides. 1 red 1 green Original starting position Move 1 (the starting move could be from either side) Move 2 Move 3

Frogs - Background Notes

The Last Campfire is a puzzle adventure game from Hello Games, in which you need to rescue lost embers. There's a lot of exploration involved, and it doesn't seem to be strictly linear. If you get stuck on any puzzles, this walkthrough guide should help you. Feel free to ask for extra help in the comments section. Walkthrough:

The Last Campfire: Walkthrough Guide | AppUnwrapper

A deceptive formula would allow the puzzle to be nearly assembled in numerous configurations but would have only one solution. When the concept was complete the production proved too expensive to manufacture for the Aquarium, but a few years later after the introduction of new digital tools like Macintosh and Adobe Illustrator, the process became economically practical and Triazzle was born.
