The Fundamental Index A Better

In The Fundamental Index, the leading industry thinker, Rob Arnott and his colleagues, present a new indexing method that captures more return for equity investors. In this important new book, the authors explain how passive, market-capitalization-weighted index investing falls short and fails to serve investors by investing too much in overpriced stocks and too little in underpriced shares.

The Fundamental Index: A Better Way to Invest: Arnott ...

The Fundamental Index examines a new approach to indexing that can overcome the structural return drag created by traditional capitalization-based indexing strategies, and in so doing, enhance the performance of your portfolio. Throughout this book, Robert Arnott and his colleagues outline this breakthrough strategy and explain how it can be used to improve investment returns, typically at lower risk and lower cost than most conventional investments.

The Fundamental Index: A Better Way to Invest | Wiley

The Fundamental Index examines a new approach to indexing that can overcome the structural return drag created by traditional capitalization-based indexing strategies, and in so doing, enhance the performance of your portfolio.

The Fundamental Index: A Better Way to Invest by Robert D ...

I think that fundamental indexing is superior to classic indexing, so long as it is not overdone as a strategy. Fundamental indexing is just another form of enhanced indexing, tilting the portfolio to value, and smaller cap, both of which tend to lead to outperformance.

The Fundamental Index: A Better Way to Invest | Robert D ...

Praise for the fundamental index. "The Fundamental Index® method is a controversial financial innovation in the field of passive investing, but this book confronts the whole range of controversy head on. The case for use of the Fundamental Index method and against cap-weighted indexes is uncommonly lucid, well illustrated, and attention-grabbing.

A proponent of a fundamental index, however, would argue that there is a better way than market capitalization to decide how much money to invest in each stock in a fund.

Fundamental Versus Cap-Weighted Index Funds | HCPLive

Fundamental Indexing is an alternative method for constructing a stock index. Traditional indexes weight stocks based on market capitalization. Stocks with greater market capitalization are given a greater weight in the index.

Fundamental Indexing: Up and Running for 5 years - The ...

Fundamentally based indexes are indices in which stocks are weighted by one of many economic fundamental factors, especially accounting figures which are commonly used when performing corporate valuation, or by a composite of several fundamental factors. A potential benefit with composite fundamental indices is that they might average out specific sector biases which may be the case when only using one fundamental factor. A key belief behind the fundamental index methodology is that underlying c

Fundamentally based indexes - Wikipedia

A fundamentally weighted index, or fundamental index, is one in which the equity components were chosen based on criteria other than market capitalization. For example, a fundamentally weighted...
