The Theory Of Attraction

The theory behind the Law of Attraction is that we create our own realities. Not only do we attract things we want, we also attract things we don't want. We attract the people in our lives, the stuff inside our homes, and the money in our bank accounts through our thoughts and feelings.

What is the Law of Attraction? - Learn Religions

There are actually four factors which are routinely studied and considered scientifically proven when using attraction theory. These are physical attractiveness, proximity, similarity, and reciprocity. Let's take a look at each of them in greater detail. #1 Physical attractiveness. Physical attractiveness is the most obvious factor that determines whether we are attracted to someone or not.
